

PRANJAL KWATRA

Computer Science Engineering Student

Pinjore, Haryana, India | +91-7496814577 | kwatrapranjal@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Innovative and driven Computer Science Engineering student passionate about full-stack development and building scalable, user-focused applications. Strong problem-solving mindset with hands-on experience in frontend and backend technologies, APIs, databases, and AI-powered solutions to solve real-world challenges.

EDUCATION

Bachelor of Engineering in Computer Science Engineering

CGPA: 9.15/10

Class XII (CBSE)

71.2

Class X (CBSE)

83.4

Chitkara University, Punjab

2024 – Present

Govt. Sr. Sec. School

2024

DAV Sr. Sec. School

2022

TECHNICAL SKILLS

Programming Languages: C, Java, Python

Web Technologies: HTML, CSS, Tailwind CSS, React.js, Next.js

Backend Technologies: Node.js, Express.js

Databases: MongoDB, SQL

Core Computer Science: Data Structures & Algorithms, Object-Oriented Programming, Operating System, Computer Networks, DBMS

Developer Tools: Git, GitHub, Linux (Ubuntu), Firebase, Cloudinary, Clerk

PROJECTS

DreamifyX – Full Stack Image Surreal Image Generation Platform *Next.js, React, Node.js, MongoDB*

- Developed an AI-powered cinematic image generation platform capable of creating surreal dreamlike environments using Flux Schnell and Stable Diffusion XL.
- Built a futuristic glassmorphism UI with responsive animations using Framer Motion and Tailwind CSS.
- Integrated Cloudinary for cloud image storage and optimized rendering performance using Next.js.

EvolveAI – AI Interview & Placement Preparation Coach *Node.js, Express.js, MongoDB, Gemini API*

- Built an AI-driven placement platform with resume analysis, ATS optimization, and personalized interview simulations.
- Developed role-specific skill-gap analysis that identifies missing skills and recommends targeted courses based on company requirements.
- Implemented voice analysis using Web Audio API to evaluate speaking speed, filler words, and communication clarity.
- Created a performance dashboard with DSA weakness tracking and placement readiness analytics.

TalentConnect – Event Talent Booking Platform

React, Express.js, Firebase

- Built a full-stack event management platform connecting event planners with photographers, musicians, decorators, and service providers.
- Developed secure authentication, booking management, and service discovery features using Firebase and JWT authentication.
- Structured scalable backend APIs and database models for bookings, services, reviews, and user management.

ACHIEVEMENTS

- Selected among 500+ teams in the national-level 48-hour CODEX 2.0 Hackathon for innovative problem-solving and technical execution.
- Participated in the Hack N Win Hackathon, developing solutions under time constraints and collaborating effectively within a team.
- Contributed to open-source development programs, gaining hands-on experience in collaborative software development workflows.

SOFT SKILLS

- Problem Solving
- Team Collaboration
- Leadership
- Time Management
- Adaptability
